

Staff and Client Surveys

ARE YOU IN NEED OF A BUSINESS REALITY CHECK?

Learning what is most important to your team and your clients is critical for business success. After all, acquiring new clients and employees is 10 times more difficult and expensive than retaining existing ones. CCG offer a unique client and staff survey program which will assist your practice in pursuing greatness and increasing feedback frequency. We strongly believe that all performance, perceptions, and employee and customer information can and should be measured. Designed with the large or small business in mind, our online surveys allow for complete customisation of questions and data collection, allowing you to analyse your performance against your business goals.

Our Practice Fitness consultants will support you to effectively utilise the information gained and implement strategies for change and growth. See your systems and relationships improve, making your practice more efficient and profitable for all.
